Our certified cardiac technicians provide 24 hour accurate and reliable analysis.

FAQ's

Refer to these Frequently Asked Questions. If you have any further questions, please feel free to contact your local **Physician Advisor**, or call us **TOLL FREE** at **888-710-2727** or **FAX** at **813-313-5933**

- * **How long will it take for my patient to receive the device?** Once we receive a completed order for MCT, your patient will be contacted as early as the same day and the device will be delivered within 24-48 hours. Please tell your patient to expect a call from **Blackstone**.
- * **What is the turnaround time for receiving results?** Once we receive the device back, results will be sent to you within 24-48 hours.
- * **Who will obtain the authorization for the Mobile Cardiac Telemetry?** **Blackstone** staff will verify your patient's insurance benefits and attempt to obtain the authorization for you. However, some fee for service insurance plans and most managed care plans require the authorization to be obtained by the primary care physician.
- * **What are the durations of MCT Studies we offer?** 48 hours up to 30 days.

**Call us today to schedule your MCT
in the comfort of your own home.**
